

SKPS

Primer

SKPS Primer is a corrosion-resistant primer made with Synthetic resin and Zinc Phosphate pigments, making it an ideal base coat for all kinds of metals.

PRODUCT BENEFITS

CORROSION-RESISTANT

SKPS Primer is designed to offer effective protection against corrosion for different types of metals.

EXCELLENT BASE COAT

It serves as an effective base coat for various types of topcoats, providing a suitable surface for adhesion.

ECO-CONSCIOUS

It is devoid of lead and chrome pigment, making it a safer and more eco-friendly option for usage.

PRE-PAINTING MEASURES

- ◆ Surface should be thoroughly cleaned and free from rust, dirt & grease.
- ◆ Solvent wipe or detergent solution wipe can be used to remove surface impurities

SAFETY MEASURES TO ADOPT

- ◆ Store the container in a cool, dry place with the lid tightly closed and upright.
- ◆ Keep away from children and food.
- ◆ Seek medical attention immediately if swallowed, and wear eye protection during application.
- ◆ Rinse eyes with plenty of water if in contact with paint, and seek medical advice.
- ◆ Wash skin immediately with soap and water if in contact with paint, and seek medical attention if irritation develops.
- ◆ Wear suitable nose pad during sanding to avoid dust inhalation.
- ◆ Do not pour leftover paint down the drain or in water courses.
- ◆ Use sand or earth to contain spills.
- ◆ No added Lead, Mercury or Chromium compounds.
- ◆ Dispose off in land filling and not in drain or any water channel.
